PURPLE WALLS!

finally got a chance to put the **purple wall tire trim** on jen's purple maxi. these tire trims fit perfecto in hutchinson 17 x 2.25 tires. a classy look for sure. you might like em, you might not. i think they're amazing! and now i want colored tires!

and the white walls on the derbi magnum are holding up nicely. still seamless, still perfect, after some desert riding in apple valley.

MOPEDS OF ARGENTINA

some many wild race mopeds in argentina. mostly photos found online and some i took when i was in argentina. [see more here](#). funny how some counties only end up with certain mopeds. in argentina it's garelli, minarelli, morini and all the knock offs. one thing i can say for sure about argentine mopeds, they have the radest mag wheels of any where! and the coolest chopper pipes of course.
